BUYERS GUIDE 2012
Introducing the Softech® Plus Nasal Cannula

Friction can contribute to pressure ulcer formation.¹ In laboratory tests Hudson RCI Softech Plus Nasal Cannulas demonstrated 30% less surface friction compared to alternative cannulas in its category.²

Thanks to a non-DEHP material blend that covers the entire bolo-style lariat, the Softech Plus Nasal Cannula is both soft and smooth, ensuring optimal patient comfort, neonates to adults.
